PROFESSIONAL EXPERIENCE

5 Years Experienced

CronJ IT Technologies 2023 Feb – 2024 Dec

Android Developer (SDE-2)

- Developed new features and modules with stateful and stateless widgets and scaffolds in **flutter** and implemented for **multi-platform** usage.
- Implemented and actively monitored **firebase crashlytics** for optimal defect management.
- Used **proguard** and **firebase analytics** for monitoring the application statistics.
- Interfaced API related and logical related updates.
- Improved the application performance by 30% by adapting to **ViewBinding** and **DataBinding** for several modules .
- Made new production releases with app signing in **native-android** development for the application with new feature implementations, improvements and bug-fixes.
- Performed code reviews and recommended possible improvements and good practices to implement for certain modules. Worked on the suggested improvements in both native and multi-platform applications.

Aroha Technologies Pvt Ltd. Dec 2021 to Nov 2022

Technologies used : Java, xml, Retrofit, MVVM, ProGuard, Firebase, Native Android

- Developed several modules by following **MVVM architecture** for both the mobile and pax.
- Developed the UI from the **wireframe** for both mobile and pax.
- Worked on the overall business logic for the app for both **mobile** and **pax**.
- Implemented **qr scanning** using **play-services-vision** for scanning **EAN, ITF, UPC, QR** etc.
- Worked on **firebase cloud messaging**.
- Worked by using a **third party library** for the calendar.
- Used **IRIS** portal to work towards bug fixes.
- Developed **custom views** to use in the application where a similar UI component has to be used multiple times considering the optimisation of the application.
- Worked on API integrations.
